ABOUT PRECISION PUMP & VALVE

Founded in 1985, Precision Pump and Valve (formerly Precision Tools and Machining) is a leading provider of specialty process controls including valves, regulators, chokes, and chemical injection pumps to the oil and gas, petrochemical and refining industries. We are also a full-service supply company providing what you need during the construction process and throughout the life of your facilities. With over 25 years of experience, we have the operational efficiency to handle projects of any size at competitive pricing while retaining our ability to offer personal service.

At Precision Pump and Valve, our passion is service and this is evident in our commitment to problem solving, industry-leading expertise, and product excellence. We understand that your pump, valve, and process control needs are mission-critical and we believe that you should expect your business partners to work as hard as you do to get the job done. We are committed to seeing your needs met - whenever you need us, whatever it takes, until the job is done.
